Objective

Software Engineer, skilled in Flutter , Dart and Java, building robust cross-platform applications with a foundational understanding of Java programming language enabling scalable solutions making simple Application using Android Studio and Visual Studio Code , Skilled Flutter Developer experienced in building cross-platform mobile apps with a focus on efficiency and user experience.

Education

Computer Science student at **Arab Open University** – Expected graduation in **2027**

Studying Computer Science with a solid foundation in programming and databases.

Currently working on improving my skills in programming specifically in app development

Participating in university projects to enhance my technical abilities and teamwork skills.

Eager to apply what I learn in practical settings and gain experience through internships or training programs.

Courses

- Completed a *Python Programming* course at Arab Open University – gained solid understanding of basic programming concepts and problem-solving skills.
- Finished a *Mobile Application Development (Android)* course at Arab Open University – covered Android fundamentals and app structure using Java.
- Participated in **Mirs Digital Transformation Initiative** – *Mobile Application Development using Java & Kotlin with Android Studio*, focusing on building native Android apps and UI/UX basics.

Certificates

- **Android Mobile Application, Arab Open University**
  Making Android Mobile Applications using Java and Kotlin.
- **PYTHON ESSENTIALS, Arab Open University**
  Core Python Syntax & Programming Fundamentals .

Extra Activities

- Developed a simple **Tic-Tac-Toe game (XO)** using **Java** and **Android Studio** as a personal project to practice mobile app development and UI design skills.
- Built a simple **Calculator application** using **Dart** and **Flutter** as a personal project to improve my skills in mobile app development and UI layout.

Skills

Languages: Dart, Kotlin, Java, Python

Frameworks: Flutter, Android SDL

Tools: Git, GitHub, VS Code, Android Studio
